

# DERMEDICS™ Biomimetic Lamellar Cream

**Biomimetic Lamellar Cream** is a highly advanced, multi-use, soft cream with lamellar structure designed to assist in calming the discomfort associated with weak, itchy, highly irritated or reddened skin. Easily applied, quickly absorbed, leaves no residue on the skin and is neutral in scent.

**Ideal compliance with human's skin.  
The skin gets what it needs, the skin feels good.**

PHOTODYNAMIC  
THERAPY (PDT)  
UV → IR  
PHOTOTHERAPIE  
DYNAMIQUE (PDT)

## Overview

### Quick recovery cream

- Reduces skin irritation post-treatment (minimises down time due to inflammatory response and accelerates quick skin recovery)
- Ideal after: microdermabrasion, skin scrubber, exfoliation by chemical, epilation by wax/sugar paste, photo-epilation by lasers, manual cleansing of skin prone to blackheads and whiteheads
- Supports in reduction of skin discomfort (dryness, itching, irritations)
- Ideal for sensitive skin prone to allergy and redness

### Promotes intelligent anti-aging defense

- Provides anti-collagenase, anti-redness, anti-inflammation, anti-saggingness, anti-hyaluronidase, anti-elastase and anti-oxidant efficacy
- Reduces oxidative stress of cells caused by aggressive beauty procedures associated with destructive impact on lipid barrier of the skin
- Restores healthier and younger appearance of the skin

**Photodynamic Therapy (PDT)** – an innovative system that based on natural ingredients has an ability of transforming UV rays to infrared light (IR). This means that the cream can be used during the day without chemical filters and it has beneficial properties for skin:

- Utilises UV light to revitalise the skin by supporting the creation of Vitamin D
- Improves skin elasticity, tone and texture
- Reduces fine lines and wrinkles
- Soothes accidental skin sunburn
- Calms post-sun skin trauma and neutralises UV negative impact on skin. It is the great skin care solution for residents of countries highly exposed to direct sunlight.

## Directions for use

- Recommended for skin of all ages for normal to combination skin
- Unisex: for women and men
- Skin with discomfort associated with weak, itchy, highly irritated or reddened skin
- Skin with strong dehydration (like in diabetics and people with hypothyroidism)

### Supports immune system of the skin

- Boosts the skin's own protective functions (provides skin-identical protective system)
- Ideal cream base for dermatological application to repair, re-hydrate and regenerate dry, itchy and atopic skin
- Promotes dermatological support against skin disorders, such as: psoriasis, ichthyosis, acne (vulgaris), atopic dermatitis, surfactant induced dermatitis

### Ideal soothing cream for skin prone to acne

- Helps to balance the oily skin and hypersecretion of sebaceous glands (which is well known as one of four major players in pathogenesis of acne vulgaris)
- Supports rebuilding the lipid barriers of the skin and calms inflammations induced by alcohol contained in acne medications

### Benefits for skin prone to acne treated with isotretinoin medication (Retin A & the like)

Thanks to the rich content of emollients (lipid components) that form thin layer on skin's surface the cream provides long-lasting protection against external irritations and promotes following benefits for the skin prone to acne:

- Reduces the discomfort of the skin associated with isotretinoin medication (dehydration, itching)
- Accelerates healing process of the tissue during desquamatory process caused by isotretinoin
- Deeply nourishes the skin and calms inflammation associated with acne
- Supports in reduction of red and purple spots left by acne

## Active Ingredients

**Calming components:** pure Dexpanthenol (D-panthenol 75%), Salicylate Silanol, Tetrapeptide-33. **Lipid components (emollients):** Caprylic/Capric Triglyceride, Palmitic Acid, Phytosterols, Ceramide NP, Phospholipids, Squalane, Hydrolipidic Dermollient (Lauryl Olivatate). **Humectants (moisturising agents):** Allantoin.

**Anti-irritant agents:** Karité (Shea Butter), Licorice, Boswellia. **Firming agents:** Morinda Citrifolia (Noni), Yeast Amino Acids. **Protective anti-oxidants:** Green Tea.
